Soft skill	highly motivated, energetic, creative, imaginative, high communication skills

## Additional information

I study in 21 schools under the supervision of Sber. I am 26 years old and I am sure of only one thing - it is never too late to learn! Just a year ago I got acquainted with the IT field and just fell in love.

I like to organize interesting projects and involve interested people in them:

- organized separate waste collection at school 21;
- Friday guitarnic ( ask me what is it :) );
- "Breathe more, think less" - meditation club;
- volunteer at animal shelters
